

Ghostly Luminaries

MATERIALS

- Round glass votives*
- Matte-finish decoupage glue, *Mod Podge*®
- 1 yard of cheesecloth
- Black acrylic paint
- Battery-operated votive candles

HOW TO

{1} Coat the outside of round glass votives with matte-finish decoupage glue, and wrap with 3-inch strips of cheesecloth, arranging strips in a crisscross pattern. Apply another coat of decoupage glue to seal, and let dry for 1 hour. Trim any excess cheesecloth around top rim of votive. Complete by painting a ghostly grin on the inside of the glass using acrylic paint, and let dry for 1 hour.

**Tip: Instead of purchasing round glass votives, you could also reuse empty glass pickle jars.*
